YOUR ONE STOP CUSTOM SHOP

NO SETUP FEES ON SCREEN PRINTING & NO DIGITIZING FEES ON EMBROIDERY*

We're here to help you look neat, clean, and professional everyday. Its our mission in life to make sure you have functionally innovative product that meets your needs and expectations. 5.11 offers full embellishment services including embroidery, heat press and screen printing through the 5.11 Custom Shop. Every 5.11 Custom Shop order is unique, contact an Authorized 5.11 Dealer for a quote or to ask any questions. Look for the custom shop icon on items that we recommend for embellishments.

* On all embellishment orders of 24 or more items we offer **NO SETUP FEES** on screen printing and **NO DIGITIZATION FEES** on embroidery. See pages 36-37 for more information.

Welcome to another new 5.11 Tactical catalog!

This fall we're proud to announce some exciting new developments for the entire public safety market.

First off, we've launched an entire new collection of Station Wear for Fire and EMS professionals. In fact, its got its own 40 page catalog, call us at 866.451.1726 to request a copy, or to find a 5.11 Tactical Fire/EMS Dealer near you.

Equally exciting, if not even more so, we're bringing change to the Law Enforcement market with a breakthrough technology in our

new "Light for Life" flashlight. Our introduction into the lighting market starts with a single duty-oriented light, but be sure that there's more in the works. 5.11's Light for Life™ flashlight has some pretty groundbreaking features: its fully rechargeable for life, uses no batteries, environmentally friendly components, recharges in under 2 minutes – and will forever – that's more than 120 times faster than the nearest competitor. Find out for yourself how the 5.11 Light for Life™ has a higher return on investment than other rechargeable lights and out-performs competitors with nearly a 400% higher up-time. See pages 66-67 for more information. Authorized 5.11 Dealers will be taking pre-orders now and we believe these lights will literally show us the way to the future.

S-3XL (3XL \$54.99), White 010, Black 019

Containing 51% S.P.™ cotton and 49% FR-x3 modacrylic fiber, FR-x3™ is an advanced fire-retardant fabric exclusive to 5.11 Tactical. Revolutionary FR-x3 retains cotton's natural breathability, comfort and ease of care, and its permanent fire-retardant properties never wash or wear out. FR-x3 exceeds minimum standards in NFPA tests for after-flame and no-drip properties according to ASTM D6413.

FLASH CREW SHIRTS

Constructed of cutting-edge, fire-retardant FR-x3 fabric, FLASH Crew Shirts get high marks for comfort and performance. Imported.

A revolutionary idea in footwear technology, the Kick-Toe is made of a high strength composite that protects your toes against accidental impacts by breaching gear, door frames – or the guy in front of you.

This C-shaped composite rises from the footbed to about the same height as your toes, but does not cover them. You get the benefit of a hard toe boot without the uncomfortable pinch and clumsy weight of safety toe boots.

**TALON STABILIZER****TALON STABILIZER**

XPRT Boots feature the new Talon Stabilizer from 5.11 Tactical, a first in Law Enforcement footwear. The Talon yoke wraps around your ankle and locks your foot securely in its grasp, giving our XPRT boots an extraordinary level of support while keeping the boot lightweight and comfortable.

**CINCH SYSTEM****CINCH SYSTEM**

XPRT Boots also feature 5.11's new Cinch System™ that allows you to securely fasten your boots and just as quickly release them. The Cinch System™ can be removed entirely and used on its own as a handy system to secure paracord.

THE 5.11 LIGHT FOR LIFE™

LIGHTING THE WAY IN EARLY 2009

We are always looking for ways to make your job easier. Whether that's the creation of an entirely new product - like our new Covert Dress Shirts - or the rejuvenation and revolution of an existing product on the marketplace - like our TDU replacing the old BDU, when we hear about a genuine new concept that has this potential, we listen.

Just a few months ago we were approached about a new idea that sounded entirely implausible - a rechargeable flashlight, **with no batteries**. Sounds unbelievable and that's what we thought until we met with Dr. Alexander, a scientist from Flashpoint Technology™ who explained the technology and how their power management system could revolutionize flashlights for the public safety market. Dr. Alexander and his team have been working on this technology for more than ten years in the hybrid car market and been able to bring this breakthrough **battery-free** technology down into a handheld size.

5.11 Tactical® and Flashpoint Technology™ have entered into an exclusive partnership to bring this patented technology to you, and at a reasonable price. The new 5.11 Light For Life® flashlights have a dramatically higher return-on-investment vs. other rechargeable lights and outperform competitor lights across the board.

PREORDER YOURS THROUGH YOUR FAVORITE AUTHORIZED 5.11 TACTICAL SERIES® DEALER.

53000 LIGHT FOR LIFE™ UC3.400 . . . \$169.99

4-Way Power: Standard (90 lumens), Peak (270 lumens), Strobe & Standby. Includes 12V DC car charger and mounting plate. 120V AC household adapter available separately.

SHOWN AT
ACTUAL SIZE

The 5.11 Light For Life™ comes with a limited lifetime warranty and its internal components are rated for a life of over 50,000 cycles. *(That adds up to more than 130 years if you use and recharge the light once a day!)* The flashlight's body is made from a state-of-the-art polymer that is impact, abrasion and water resistant to stand up to the intense duty we know you'll put it through.

Lights will be delivered on a first-come, first-served basis in early 2009. Preorder yours and learn more about the 5.11 Light For Life™ at www.511Tactical.com/lightforlife.
